

Vive base station power specifications

Overview

Is Base Station 2.0 compatible with Vive Pro?

Base Station 2.0 is compatible with VIVE Pro series headsets. It powers the presence and immersion of room-scale virtual reality by helping these headsets and controllers track their exact locations. Features wireless syncing. NB: This product is also compatible with Varjo HMD eye trackers.

Do I need a base station for my HTC Vive?

Two base stations are needed to effectively track the position of a headset. The HTC Vive Base Station was designed for use with the original HTC Vive, but can also be used with later SteamVR headsets such as the Valve Index and HTC Vive Pro 2. Some specific headsets compatible with HTC Vive Base Station.

How much power does a Vive base station use?

Fun Fact: While the power adapters that come with the Vive's base stations list their max as 2.5A (2500 mA), the base stations really don't use anywhere near that in practice. Dev reports show that the base stations run just fine at 0.75A (750 mA).

How do I set up Vive base stations?

To set up Vive base stations, first, you may purchase the hardware from the Accessories tab on For best results, mount the base stations diagonally and above head height, ideally more than 2 m (6 ft 6 in).
