

Warsaw PV inverter subsidies

Overview

How many photovoltaic micro-installations are there in Poland?

Since its inception, the "My Electricity" program has funded over 530,000 photovoltaic (PV) micro-installations across Poland, significantly contributing to the nation's renewable energy goals. 1□ For PV micro-installations registered by July 31, 2024, energy or heat storage systems are optional but encouraged.

How much does Energia DLA WSI cost in Poland?

The second funding round has a budget of PLN 1 billion (\$242.6 million). The Polish government has opened a second round of its Energy for Rural Areas (Energia dla wsi) program, offering loans and subsidies for the construction of renewable energy projects and agricultural biogas plants in Poland's countryside.

What are the requirements for a photovoltaic system in Poland?

6□ Balcony PV sets. 7□ Other devices approved for use in Poland. All photovoltaic installations must be connected to the national power grid. The capacity of the energy storage systems funded under the program must be at least 1.5 times the peak power (kWp) of the PV installation.

What is Poland's 'My electricity' program?

Poland's Ministry of Climate and Environment has announced the launch of the sixth edition of the "My Electricity" (Mój Prąd) program. This initiative, set to begin on September 2, 2024, and run until December 20, 2024, or until funds are depleted, aims to further support the adoption of renewable energy in the country.
