# Warsaw solar energy storage subsidy

## Overview

---

A total of PLN 4 billion (\$1 billion) will be distributed under the subsidy scheme by the end of 2025 in a bid to bring online more than 5 GWh of energy storage projects by 2028. What is Poland's energy storage subsidy program?

Following a public consultation launched in July 2024, the Polish Ministry of Climate and Environment has finalized its energy storage subsidy program which aims to support the deployment of more than 5 GWh of energy storage in the country. The new regulation was published in the Journal of Laws of the Republic of Poland on March 7.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).

Why should Poland invest in energy storage?

Development of energy production and consumption forecasting systems. Energy storage subsidy programs support the transformation of Poland's electricity grid into a more flexible and resilient system. Investments in storage facilities enable better integration of RES, improve grid stability and enhance the country's energy security.

Does Poland need a state aid package for energy storage?

A panel discussion on the Polish market at the recent Energy Storage Summit CEE in Warsaw. Image: Solar Media The European Commission (EC) has approved a €1.2 billion (US\$1.32 billion) state aid package for Poland to support the deployment of electricity storage facilities.
