# Waterproof design of energy storage cabinet

## Overview

---

Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements.

Why should you choose a rack-type enclosure?

Our rack-type enclosure design not only conforms to common usage habits, but also emphasises the advantages of modular design to adapt to the diverse application requirements of energy storage cabinets. Machan has extensive experience in waterproofing and can assist customers in obtaining IP-rated waterproof certification.

Who makes energy storage enclosures?

Machan offers comprehensive solutions for the manufacture of energy storage enclosures. We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services.

Do energy storage cabinets need to be painted?

This ensures that energy storage cabinets maintain excellent appearance and performance, as well as resisting corrosion and UV radiation. We place particular emphasis on comprehensive pre-paint processes, including degreasing, cleaning and neutralisation, to ensure excellent paint adhesion and quality.
