

West Africa Super Electrolytic Capacitor

Overview

What is a super capacitor?

Super Capacitors (Super Caps) are the next generation energy storage with advanced performance where it matters most. They have a lifespan of more than 30 years with no capacity degradation. A high charge and discharge rate with more than 98% round trip efficiency at a 100% depth of discharge make Super Caps the most efficient way to store energy.

What are sinetech supercapacitors?

Sinetech's supercapacitors are designed to maximize efficiency, offering a dependable solution for your power storage requirements. Supercapacitors are renowned for their rapid energy storage and release capabilities and they are a popular solar energy storage system.

Are super capacitors safe?

Combined with high performance and long-term stability, they are the ideal safe energy storage technology. MAGNETO Super Capacitor 48V5.0KWh Wall (Min 50000 Cycles) Why use a Super Capacitor?

Super Capacitors (Super Caps) are the next generation energy storage with advanced performance where it matters most.

What's new with West supercapacitors?

Smart. Built for the sea. What's new with WEST! WEST Supercapacitors are now installed in Hystream Yachts – delivering fast-charging, high-efficiency energy storage without the fire risk of thermal runaway. A safer, smarter solution for cutting-edge marine innovation.
