

# **Western Europe Sunshine solar Panels**

## Overview

---

How big is the Europe solar PV market?

The Europe solar PV market size crossed USD 63.1 billion in 2024 and is set to register at a CAGR of 7.1% from 2025 to 2034, due to the growing focus on green energy and net zero initiatives.

Is 2023 a record year for solar PV in the EU?

2023 marks another record year for solar PV in the EU, with 55.9 GW installed across the 27 Member States, showing a 40% growth from 2022 and a doubling of the market in just two years. This is the third year in a row that the EU market breaks its previous record, as well as the third year in a row with annual growth rates of at least 40%.

Are east-west facing vertical PV panels a good investment?

The study shows that with higher PV penetration, aligning more closely with key EU policy initiatives (EU Solar Energy Strategy, Green Deal, REPowerEU Plan), east-west faced vertical PV panels can play a favourable role to achieve a more balanced and more integrated power system in the EU by 2040.

Who are the major players in the European solar PV industry?

Some of the major players in the Europe solar PV industry include Canadian Solar, CsunSolarTech, EMMVEE SOLAR, First Solar, JA SOLAR Technology Co., Ltd., Jinko Solar, LG Electronics, Q CELLS, REC Solar Holdings AS, Renesola, Shunfeng International Clean Energy, Solaria Corporation, Solar Frontier KK, Trina Solar, Yingli Solar.

## Western Europe Sunshine solar Panels

### [Sunshine in Western Europe in spring 2025 ...](#)

Jun 26, 2025 · Western Europe experienced one of its sunniest springs since records began, with solar radiation significantly above historical long-term ...
