

What are the energy storage charging stations in Spain

Overview

How many EV charging stations are there in Spain?

List of charging stations for electric vehicles in Spain. If you're an EV driver looking for EV chargers in Spain, you're in the right place. Electromaps database contains 16,969 charging stations available throughout the country, making it easier for drivers to power their vehicles on the go.

How many electric vehicle chargers does Spain need?

Spain would need over 183,900 electric vehicle chargers to meet the European Union's AFIR objectives by 2030. While its 30,345 public charging points available at the end of the fourth quarter of 2023 would already meet the 2024 target, Spain faces various challenges to expanding its charging infrastructure.

Which city has the most charging stations in Spain?

Barcelona is the city with more charging stations in Spain. And 46713 is the place with less. The latest charge point added to our database of Spain was: Germania Imgeteam in Paterna (15/01/2025). We also provide a mobile app version for Apple iOS (iPhone) and Android devices which can provide more specific details about each charger for free.

Where can I find EV chargers in Spain?

These stations can be found in public areas, homes, office buildings, and commercial parking lots across Spain. As of 2025, Spain's EV infrastructure is expanding rapidly, supported by EU climate goals and growing demand. Whether you're a private EV owner or managing a business fleet, understanding the types of EV chargers near you is key.
