

# **Where are the energy storage cabinet batteries produced in Africa**

## Overview

---

Could locally produced batteries be a solution to Africa's energy crisis?

“With Eskom ’s new 1.4 GWh energy storage project, locally produced batteries may provide a good opportunity for a true local solution to an urgent need,” says Naicker. “The lack of affordable batteries has prohibited the mass-penetration of much-needed energy storage solutions throughout Africa,” he adds.

Does Scatec have a solar-plus-storage site in South Africa?

Scatec’s Kenhardt solar-plus-storage site in South Africa (above), which went online at the end of 2023. Image: Scatec. Africa’s energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar’s latest report.

What are the most popular solar-plus-storage developments in Africa?

As noted by AFSIA Solar, one of the most notable solar-plus-storage developments in Africa is Norway-based independent power producer (IPP) Scatec’s 225MW/1,140MWh Kenhardt project in South Africa. The site started operation in late 2023 (pictured above).

How has energy storage changed in 2022?

This has resulted in an increase in energy storage levels in recent years. In 2022, the continent had around 50MWh of energy storage capacity installed. Since then, energy storage capacity tripled in 2023 and then experienced another 10-fold increase in 2024. Image: AFSIA Solar.
