

Wholesale 37 5kva transformer in Turkey

Overview

Who is the largest transformer manufacturer in Turkey?

Astor is one of the largest transformer manufacturers in Turkey with around 700 staff and exports to over 60 countries. Factories situated in Ankara/Turkey and they have an office in Istanbul. ELKIMA was founded in 1973. In 2014 started production of Oil and Dry Type 3D wound core transformers.

What is a 37.5kva transformer?

The 37.5kva transformer usually has a single-phase unit with two voltages, a 240x480V primary and 120/240V secondary. It is robustly constructed using high-grade materials like budding and cold-rolled silicon steel laminations. This equipment is also powered with innovative technology to ensure it'll serve its purpose safely and efficiently.

What is a 37.5 kVA transformer made of?

Most single-phase 37.5 KVA transformers are made of solid resin mass, sealed in silica sand. This coverage is to enclose and protect the coil. The winding materials used in this transformer are copper with a 600V and 120/240V primary and secondary voltage, respectively.

Why should you choose Turkish transformer?

Turkish Transformer's distribution transformers ensure efficient voltage conversion for safe energy delivery in residential, industrial, and commercial areas. Turkish Transformer provides industry-specific solutions with high-quality power transformers, transforming energy infrastructure with safety and efficiency.
