

# Wholesale gfcı breaker wiring in Manila

## Overview

---

What are Meiji GFCI outlets?

Meiji GFCI outlets are protective outlets designed to shut off an electric circuit when it detects current imbalance. These devices are basically electrical wiring devices that disconnect the circuits connected to them once a substantial change or leakage current is detected.

What is a GFCI outlet?

GFCI . Ground Fault Circuit Interrupter outlet 16A . GFCI . Duplex universal Delta Lighting.

Who is Meiji electrical Philippines?

MEIJI ELECTRIC PHILIPPINES, INC. has been in the electrical business for more than 30 years now. Established in 1981, the company's operations initially involved the marketing of electrical lighting materials. Through the years, it has grown and expanded, both in product lines and client bases.

What is a circuit breaker?

A circuit breaker is an automatically operated electrical switch designed to protect an electrical circuit from damage caused by excess current, typically resulting from an overload or short circuit. Its basic function is to interrupt current flow after a fault is detected.
