

# Winch circuit breaker factory in America

## Overview

---

Where are therm industrial winches made?

Therm industrial winches are made in the U.S.A. and provide maximum durability, reliability, and safety to keep your business running. As an experienced winch manufacturer, we know you depend on your winch to get the job done — day in and day out.

Who makes hydraulic winches?

American-made hydraulic winches and power units, engineered for strength, reliability, and performance across multiple industries. Hydraulic Winch Co. is a trusted U.S. manufacturer of industrial-grade hydraulic winches and power systems.

What is a circuit breaker for a winch?

A circuit breaker for a winch is a device that protects the electrical system from overload. When power comes into the circuit, it automatically goes to each device in turn. It shuts off if it senses an overload. This protects the winch and any other devices connected to it from getting damaged in case of an electrical emergency.

Where are Bloom winches made?

At Bloom Manufacturing, we're proud that all of our "World Class Winches" are manufactured right here in the United States. Our dedication to American-made quality allows us to take great pride in the custom solutions we provide to our customers.
