Are wind motor pumps a success story in Namibia?

It's one of the big success stories in Namibia, where renewable energy – Wind Motor Pumps – were being used for generations to pump water. Despite its availability for over 100 years, wind installations in the interior of Namibia nearly always require big reservoirs and additional backup solutions.

What is photovoltaic pumping?

“Photovoltaic Pumping” (PVP) utilizes the regular sunshine of this country and together with its easier handling outperforms “old-style” wind motors. The comparison between a “Diesel-engine powered pump” and “Solar powered pumping” declares – Solar – as a clear winner in a study initiated by the Namibian Ministry of Mines and Energy in 2004.
